**Project Description:**

The City of Rio Rancho is soliciting formal bids for the rehabilitation of Sara Road between Southern Blvd. and NM 528 includes upgrades to pedestrian facilities as well as improvements to roadway pavement. Nearly all of the pedestrian ramps along Sara Road are out of compliance with the Federal standards for ADA facilities. Areas identified as having poor subgrade will require the excavation of unsuitable material, replacement with suitable borrow and subgrade preparation. All asphalt patching will be done using HMA SP IV Complete. The final lift of paving will use HMA SP III Complete. Additional miscellaneous work includes but is not limited to the following; Incidental precision utility location and preservation (coordination with utility companies to relocate their facilities is highly probable in some locations), pathway paving, removal of bollards, signs and trees, curb repair.
